We want you to know that we are very thankful for the use of your vehicle and we appreciate your generosity.

We would like to make you aware of the responsibility you will be undertaking. In order to transport anyone in your vehicle for a church event, it is required that you have current automobile insurance, and a valid driver's license (if you are the driver).

The church does not carry insurance to cover any damage to your vehicle in the event of an accident or theft. In the event of an accident, your vehicle insurance would be the policy that covers any and all liability.

We understand if you are unable to allow the use of your vehicle under these circumstances. If you do allow the use of your vehicle, we understand that you are aware of and are in agreement with these conditions.
